**East Kingdom**  
**Internal Letter of Decision**  
**East ILol dated April 30, 2018**

To most noble members of the East Kingdom College of Heraldry, greetings for one last time!

You will notice a new format for the Letter of Decision this month, for good reason - I am stepping down as the East Kingdom Submissions Herald, effective as of the Known World Heraldic and Scribal Symposium on June 9, 2018. That even shall mark the three year anniversary of my taking on this job, and my term is finished.

My most excellent deputy, Muirenn ingen Dúnadaig, currently serving as Diademe Herald, shall step up to take over my duties as Blue Tyger Herald. This letter of decision was created and written by her as part of the transition, and then finalized by me. All the correct decisions are hers, all of the errors mine.

I am also going to take this moment to thank my staff, without whom I could not have done the job. Muirenn Diademe and Lilie Pantheon, and, before them Charitye Diademe, as well as Jeanne Blue Alaunt have served as my primary deputies and have done much of the actual work of this office. Liadan Mural and Charitye Mosaic, and their predecessors, have served as notification heralds, ensuring that internal and external notifications reach the submitters. My staff artists, Joscelyn le esqurel and Þórý Pallet have helped tremendously with redraws, and my staff of proofreaders have made sure my Letters weren't grammatically incorrect beyond all reason.

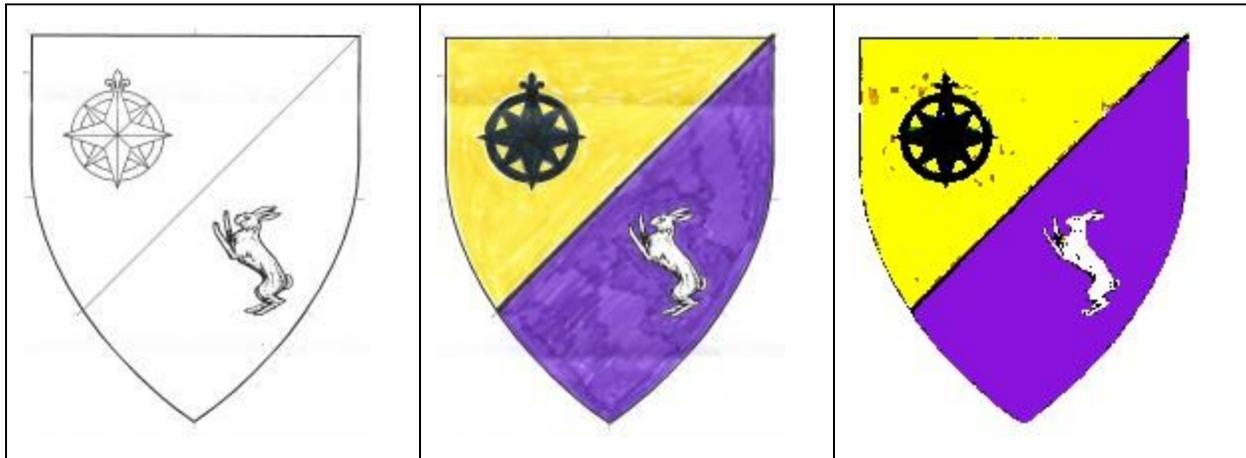

As always, my many thanks to the kingdom commenters, without whom this job would literally be impossible. This month they include: Iago ab Adam, Francesco Billet, Donovan Golden Rapier, Eleazar ha-Levi, Þórý Pallet, Alexandre Saint Pierre, Rosina von Schaffhausen, Mathghamhain Seahorse, Etienne Sea Stag, Cristina Volpina, and Grímólfr White Oak.

Your commentary and insights are always greatly appreciated - many hands make light the work.

Submission	Description	Decision
Device resubmission	Azure, a bend sinister ermine between a lion rampant contourney and three comets argent	Forwarded

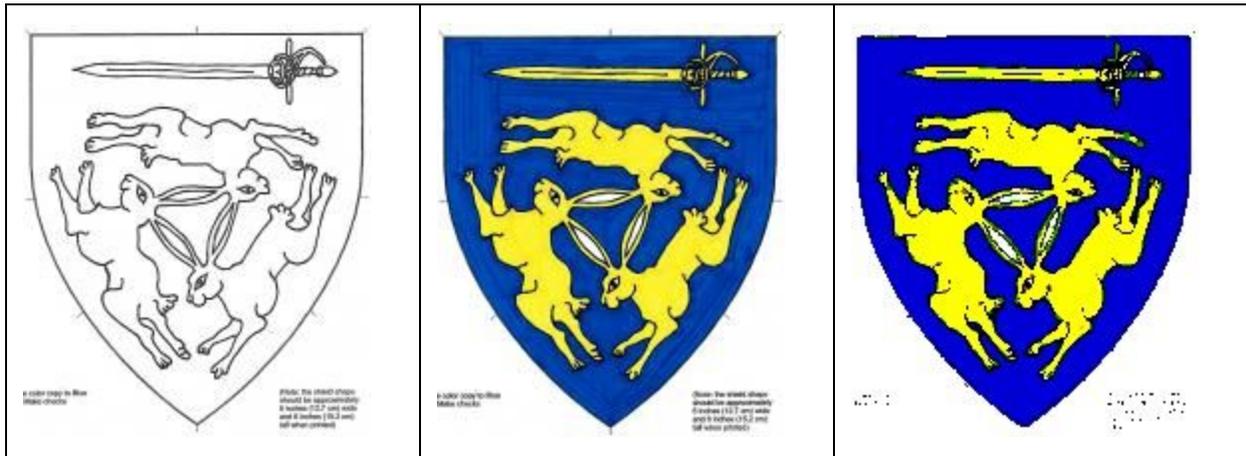

The original submission "Azure, a bend sinister ermine between a lion rampant countorny and three comets argent." was returned at kingdom for a redraw as commenters were unable to identify the comets as such. [...] "Additionally the submitter should be aware that in period, ermine bends and bends sinister typically had the ermine spots perpendicular to the bend, not upright as submitted."

This redraw addresses both issues.

## 7. Cúán an Saigteóir mac Fintain Irruis

Submission	Description	Decision
Device resubmission	Per fess engrailed Or and azure, a wolf courant sable and a sheaf of five arrows Or	Forwarded

Original device was returned on the January 2018 LOAR:

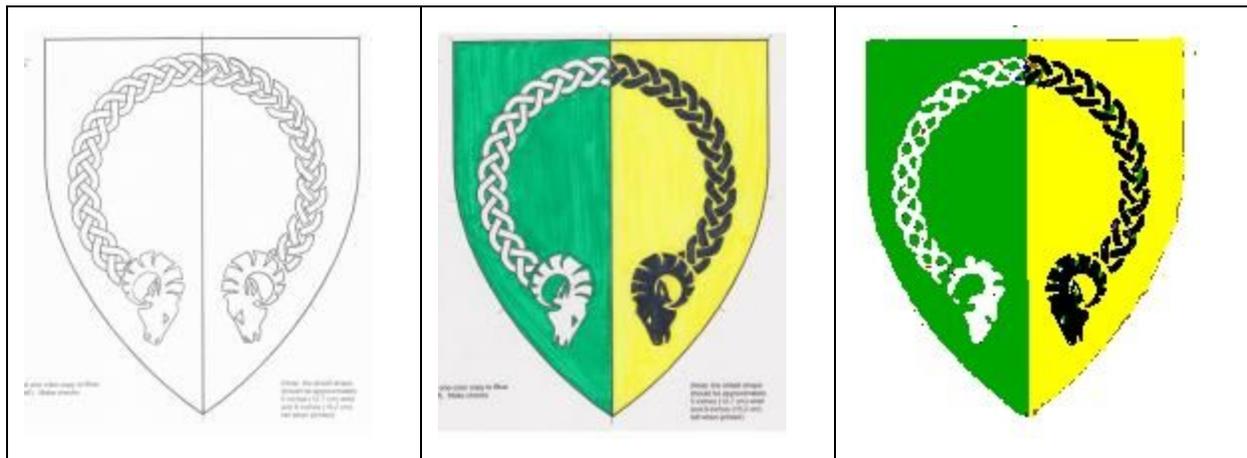

"This device is returned for violation of SENA A2C2, which requires that charges must be depicted in a way that is identifiable. The posture of this wolf, blazoned in the submission as "courant," is in reality a form of statant that is not documented, reminiscent of a wolf trotting with forelegs and hind legs splaying in opposite directions from one another, forming two chevrons. Courant is a posture where all four limbs are splayed out as the creature is running at full extension. While this might be a naturalistic depiction of a wolf running, it is not a heraldic depiction and must therefore be returned.

Upon resubmission, we advise the artist to depict both charges larger to fill the available space, and to make the engrailments of the field division wider and deeper."

This submission is a redraw that addresses all of the issues.

## 12. Katerina Falconer de Lanark

Submission	Description	Decision
New Device	Per chevron inverted gules and azure, on a chevron inverted Or another sable, in chief a compass star Or	Forwarded

### Note:

There is a step from period practice for the compass star.

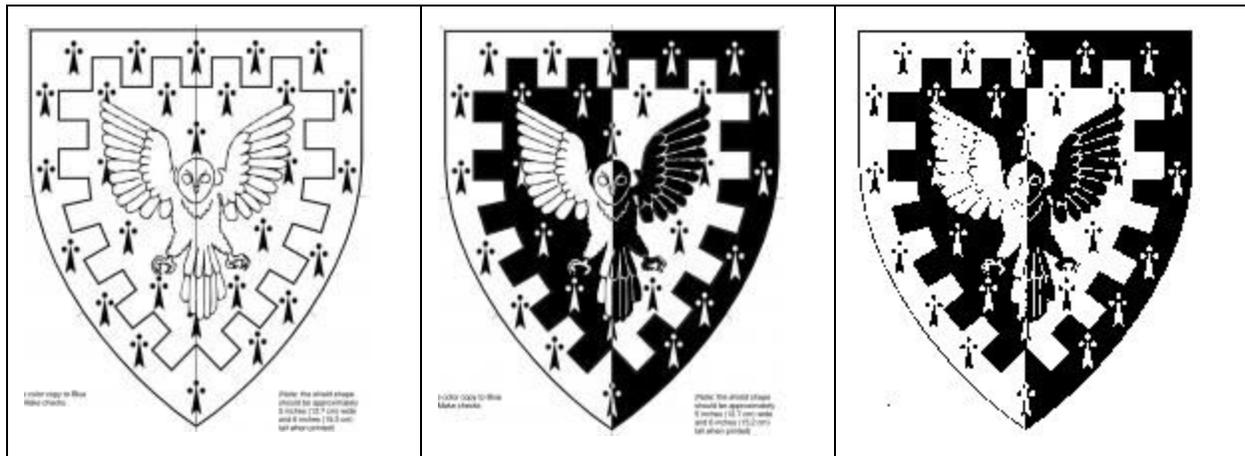

Kingdom commenters were concerned that this badge was presumptuous of, or obtrusively modern because of a resemblance to, the logo or costume of Captain Marvel, particularly with the Captain Marvel movie coming out next year.

As questions of presumption and obtrusive modernity are reserved for Wreath and Laurel, we are forwarding this device.

**15: Mýrún Leifsdóttir**

Submission	Description	Decision
New name	Mýrún Leifsdóttir	Forwarded
New device	Sable, an owl contourny maintaining a twig bendwise argent fructed Or	Forwarded

Submitter desires a feminine name.

No major changes.

Language (none specified) most important.

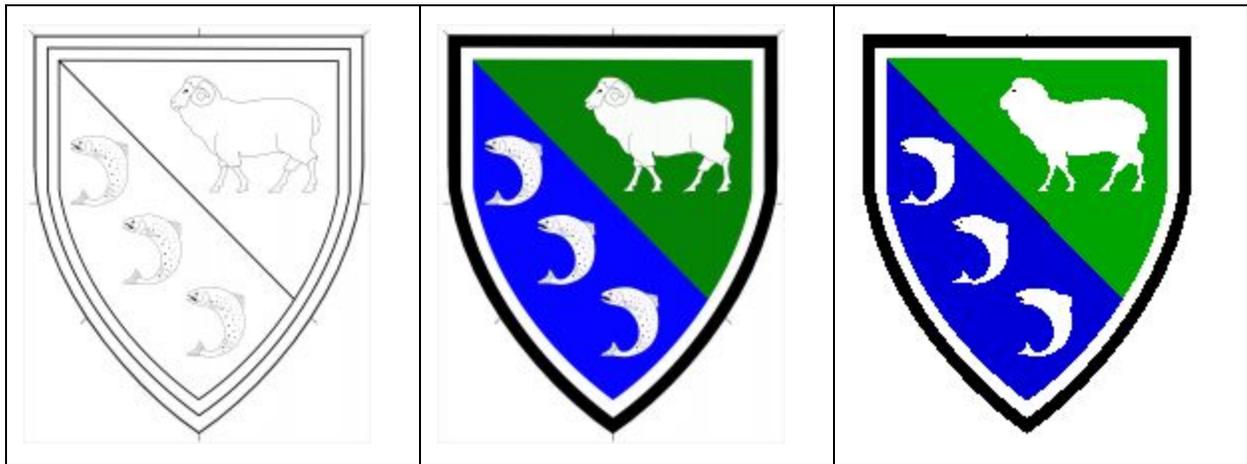

Mýrún is a Norse feminine given name found in GB, p 13

Leifsdóttir is a patronymic byname formed from the male given name Leif found on p 13 of GB, with the patronymic from rules for patronymics in GB p 17.

Blazoned when submitted as *Sable, an owl contourny maintaining a generic twig bendwise argent fructed Or*, Kingdom commenters were concerned that “generic twig” was not an acceptable blazon. Furthermore, they were not certain of what blazon would accurately describe this branch with berries and leaves. We have dropped the word “generic” from the blazon.

**16: Pétr á Vatnahverfi**

<b>Submission</b>	<b>Description</b>	<b>Decision</b>
New Device	Per bend vert and azure, a ram statant argent and three arctic char embowed argent spotted sable within a bordure parted bordurewise sable and argent	Forwarded

**Notes:**

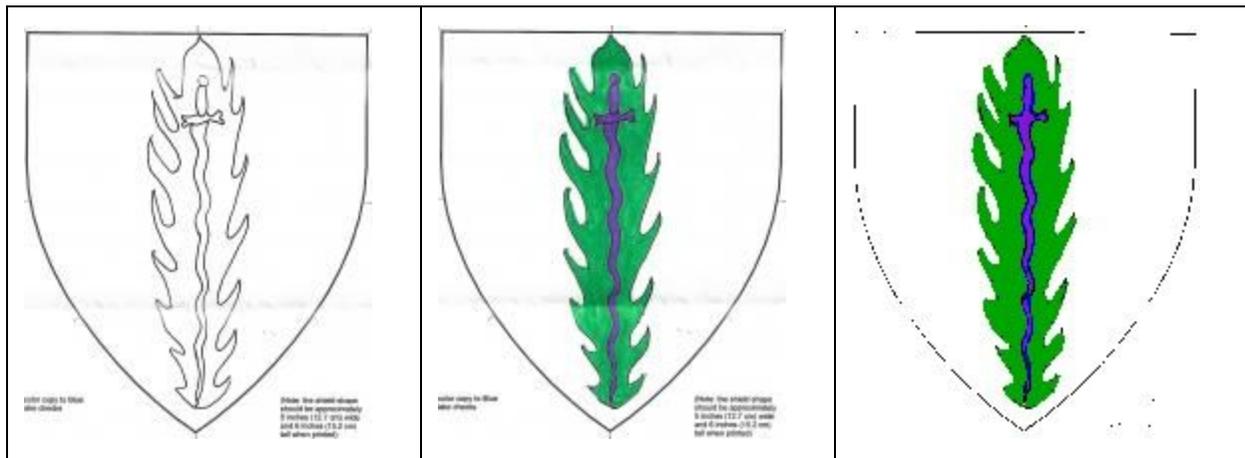

The submitter provided additional information about the arctic char, to support the desired blazon. Images will be uploaded with the packet.

Arctic Char (*Salvelinus alpinus*) is a cold-water fish of the Salmonidae family and during period times was widely distributed in Scandinavia, Greenland and the colder waters of the British Isles.

The GUS excavations showed that bones from arctic char were more plentiful than any other fish species (page 24).

**17: Petr Magnusson**

Submission	Description	Decision
New name	Petr Magnusson	Forwarded
New device	Argent, a sword wavy inverted purple enflamed vert	Returned

**Note:**

A correctly drawn sword enflamed have the blade and hilt of the sword surrounded by individual spurts of flame. [Þórðr Tjorvason, R-Calontir, 01/2003]

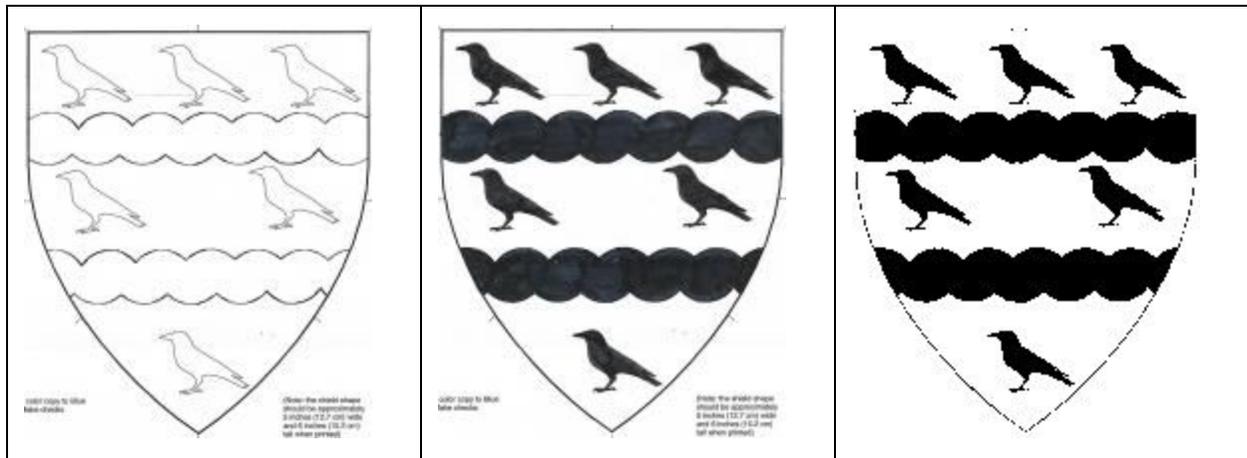

<http://heraldry.sca.org/loar/2003/01/03-01lar.html>

Therefore, this is not a sword enflamed, but, rather, “Argent, a sword wavy inverted purple on a flame vert.” As such, it is not registrable without an IAP due to a lack of sufficient contrast between the purple sword and the vert flame.

Upon resubmission, the submitter should either draw the enflaming in period fashion, as small spurts of flame along the edges of the charge, or, if submitting “on a flame”, should consider the rules of contrast when choosing tinctures.

**18: Rauðr Flokason**

Submission	Description	Decision
New Device	Argent, two bars inverted and six crows three, two, and one sable	Forwarded

**Note:**

Submitted as Argent, two fesses inverted and six crows three, two, and one sable”, Kingdom commenters pointed out that multiple fesses are generally blazoned as bars. We have changed the blazon accordingly.
