## East Kingdom

### Internal Letter of Decisions

Unto the East Kingdom College of Heraldry, upon the 10th Day of Tevet, 5776, greetings! Here is the Letter of Decisions for the Internal Letter of Intent issued on October 31, 2015.

Many thanks to the following commenters who provided assistance this month: Alys Ogress, Arwyn of Leicester, Brenna Lowri o Rothin, Caoimhin Rouge Sanglier, ffride wlfssdotter, Galefridus Peregrinus, Gawain Green Anchor, Juetta Copin, Maridonna Benvenuti, Matilda Wynter, Modar Volk, Muirenn Mosaic, Rohese Shadowdale, Ryan Brigantia, Seraphina Golden Dolphin, and Solveig Thronardottir. Your commentary and insights are always greatly appreciated.

### 1: Aharon ben Zach -New Name Forwarded

Submitter desires a masculine name.

No major changes.

Sound (Keep the first name as) most important.

**Aharon** is found cited in Mainz, Germany dated 1096 in Juetta Copin's "Names of Jewish Men, 6th to 11th Centuries" (<http://s-gabriel.org/names/juetta/masc/aharon.ht>)

**ben Zach** - Zach is found as a masculine given name in "Jews in Catalonia: 1250 to 1400 - Men's Given Names" by Juliana de Luna

(<http://heraldry.sca.org/names/catalanjews/CatalanJews-given-men.html#alpha>)

The pattern *ben B* meaning 'son of B' for men is found in Appendix A for Jewish names.

Appendix C states: "Jewish names documented from location X are registerable with (1) other names documented from the languages for that language group and (2) with other Jewish names documented from other parts of Europe."

The form states that most important is "Sound: Keep the first name as". We can only assume that the desire is to keep the name as close in sound as the submitted name. Will try to contact submitter for clarification.

### 2: Amis Mwyn -Resub Device Forwarded

*Or, a saltire azure fretted of a mascle gules, a bordure sable*

The submitter's original device, *Or, a saltire azure fretted of a mascle gules*, was returned on the April 2010 LoAR (R-East) with the following explanation:

This device conflicts with the badge of the Midrealm's Award of the Purple Fret, *Or, a fret purple*. There is a single CD for the change of tincture of the primary charge. The charge here is visually equivalent to a fret, which is "a bend and a bend sinister fretted of a mascle." The only difference is some internal detailing.

The bordure has been added in an effort to clear the conflict.

### 3: **Brandr nefsbjotr Aronsson** -New Name Change **Forwarded**

Old Item: *Cian Mac Fhearghuis*, to be released.

Submitter desires a masculine name.

Meaning (Brandr the nose breaker, son of Aron) most important.

**Brandr** is in Geirr Bassi, pg. 9, as a male given name

**nefsbjotr** is a constructed form meaning "nosebreaker." In August 2008, we registered rífsbjótr (rib breaker) on the basis of the variety of things that were "broken" in bynames. Geirr Bassi, pg 26, gives 'Nefr' as nose and Cleasby-Vigfusson's Icelandic-English Dictionary (s.v. brótr) where brótr is stated to mean breaker. This uses the genitive form of the first element, as with the registered name.

**Aron** is in Geirr Bassi, pg. 7, as a male given name. Geirr Bassi does not give the genitive form for this name, but the SMP, vol I, s.n. Aron, lists a <Marcus Aronson> in 1414, so the patronymic earlier is also probably **Aronsson**.

**Notes:** In commentary, ffríde wífisdóttir argued that the correct construction for the descriptive byname is "nefjabrjotr", as the word "nef", "nose", needs to be placed into the genitive plural, "nefja", rather than the genitive singular, "nefs". As the submitter permits all changes and states that meaning is most important, this is a permissible change. However, in light of the 2008 precedent cited in the LoI, and as Blue Tyger is not an expert on Norse grammar, we are forwarding this name in its original form for further commentary.

On resubmission, the submitter should be aware that the posture “cadent” has never been registered in Society heraldry. Therefore, it requires documentation of being a period posture - absent such evidence the posture is likely unregistrable. The submitter may wish to consider the “herissony” posture as visually similar, or any of the period postures.

#### 5: Charlotte Orr -New Name & New Device Forwarded

*Quarterly argent and sable, a hedgehog statant guardant gules*

Charlotte is found in Triste Elliot's, "16th century Norman Names"

[<http://www.s-gabriel.org/names/cateline/norman16.html>] lists Charlotte as a feminine given name in Rouen, 16th c.

Orr is a gray-period English surname found in the Family Search Historical Records:

Eilene Orr, Burial, Female, Jun 1604, St. Mary, Barton-Upon-Humbler, Lincoln, England, Batch #B02594-3 (<https://familysearch.org/ark:/61903/1:1:J8Y4-72K>)

SENA Appendix C allows combining English and French elements.

**Notes:** In commentary, Ogress also documented this name as a wholly-English late-period name:

Charlotte O...; Female; Marriage; 14 Nov 1575; Bytham-Castle, Lincoln, England; Batch: M03500-2 (<https://familysearch.org/ark:/61903/1:1:NXWS-FM7>)

Charlotte Harretes; Female; Marriage; 08 Jul 1568; Claverley, Shropshire, England; Batch: M00849-1 (<https://familysearch.org/ark:/61903/1:1:NVFX-HL4>)

Christofore Orr; Male; Christening; 28 Oct 1599; ST ANDREW PAR REG AND NONCONF, NEWCASTLE UPON TYNE, NORTHUMBERLAND, ENGLAND; Batch: P01610-1 (<https://familysearch.org/ark:/61903/1:1:J77N-ZZ9>)

## 6: Constanica de Vianne -New Name & New Device Forwarded

*Purpure, a crossbow bendwise sinister and on a chief argent five musical notes inverted sable*  
Submitter desires a feminine name.

No major changes.

Language (Occitan 14th cen.) most important.

Culture (Occitan 14th cen.) most important.

**Constancia** is a female given name found in "Names from Fourteenth Century Foix" by Cateline de la Mor (<http://www.s-gabriel.org/names/cateline/foix.html>) s.n. 'Constance' The location and typography indicates that the submitted spelling is the Occitan form.

The byname **de Vianne** is a locative byname; "Vianne" is a subordinate header form s.n. Viane, and it's dated as "Veiana" to 1358. Unfortunately, Pennsic Herald's Point did not write down the source for this information.

'Vianne' is the name of a town in Gascony, which existed in 1284, according to "New Towns of the Middle Ages" by Maurice Beresford. Ulric von der Insel owns the source and can provide docs.

**Notes:** In commentary, Ogress provided the following additional documentation for the byname:

*Histoire des évêques de l'Eglise de Metz* published in 1634

(<https://books.google.com/books?id=NAg-DLdIGbUC>) at p. 424 refers to <Frideric Comte de Vianne>, which translates as <Frideric, Count of Vianne>.

*Tableau de l'histoire des princes et principauté d'Orange* published in 1640

(<https://books.google.com/books?id=P70v19BK4VsC>) at p. 188 refers to <Rene de Nassau Comte de Vianne> who did something in 1530.

Blazoned on the Lol as *Purpure, a crossbow bendwise sinister and on a chief argent five neumes inverted sable*, the more typical blazon for the tertiary charge is "musical note". We have reblazoned it accordingly. Commenters raised a concern as to the identifiability of the musical notes inverted. While Blue Tyger shares this concern inverted inanimate charges are generally permitted. We are therefore forwarding this device for further commentary.

## 7: Hasanah bint al-Khalil ibn Habib -New Household Name Forwarded

*Erlendsstaðir*

This is a joint household name with Ingvar Thorsteinsson.

The submitter's primary name appears on the September 2015 East Kingdom ILol.

Academy of Saint Gabriel report 3279

(<http://www.panix.com/~gabriel/public-bin/showfinal.cgi?3279+0>) gives "staðir" 'stead' as a homestead designator combined with given names. It says in part " A majority of these were named after individuals, for example "Egilsstaðir" 'Egill's stead(s)', and far more were named for men than for women."

**Erlendr** is found as a masculine name at p. 9 of Geirr Bassi Haraldsson, *The Old Norse Name*. Dropping the terminal -r and adding -s forms the genitive/possessive, as is required grammatically.

The pattern of creating place names from the genitive form of given names + -staðir is found in "Place-Names in Landnámabók," by Talan Gwynek

[https://web.archive.org/web/20150415064933/http://my.stratos.net/~bmscott/Landnamabok\\_Place-Names.html](https://web.archive.org/web/20150415064933/http://my.stratos.net/~bmscott/Landnamabok_Place-Names.html))

**Notes:** Norse household names have generally been registered using the singular "-staðr" rather than the plural "-staðir". See "Þorgarðsstaðr", registered to Þorgarðr inn Sterki in July of 2012 (via Aethelmearc). However, the plural form is documented and therefore should be registerable.

## 8: Ignacia la Ciega -New Badge Forwarded

*Gules a chevron Or between a demi sun and a shamishir inverted Or*

This submission is to be associated with *Ignacia la Ciega*

**Notes:** Submitted as "*Gules a chevron Or between a demi sun and a sword point to dexter (shamshire) inverted Or*", we don't normally blazon the direction of the sword's point. In Society armory this type of sword is generally blazoned as a shamishir, and using it is a Step from Period Practice. This device is clear of the device of Mar Arthursson, "*Gules, a chevron couped*

Or" [A-Drachenwald, May 1996 LoAR] with one DC for the chevron being couped and one DC for adding a secondary charge group.

**9: Ingvar Thorsteinsson -New Device Forwarded**

*Erminois, a boar's head cabossed sable and a chief gules*

**10: Ingvar Thorsteinsson -New Badge Forwarded**

*(Fieldless) A tree blasted and eradicated per fess gules and sable.*

This submission is to be associated with *Erlendsstaðr*

The household name *Erlendsstaðr* appears elsewhere on this letter.

This item is to be jointly registered by Ingvar and Hasanah bint al-Khalil ibn Habib. Hasanah's primary name appears on the September 2015 East Kingdom ILol.

---

**11: Ingvar Thorsteinsson -New Badge Forwarded**

*(Fieldless) A tree blasted and eradicated quarterly gules and sable*

This item is to be jointly registered by Ingvar and Hasanah bint al-Khalil ibn Habib. Hasanah's primary name appears on the September 2015 East Kingdom ILol.

---

**12: Johannes von Braunschweig -New Name Forwarded**

Submitter desires a masculine name.

Language (14th cen. German) most important.

Culture (14th cen. German) most important.

Meaning (someone from Brunswick) most important.

**Johannes** is a male given name found in 14th cen. Plauen, Germany, according to "Late Period German Masculine Given Names" by Talan Gwynek

(<http://heraldry.sca.org/names/germmasc.html#plauen14>).

**von Braunschweig** is a German locative byname based on the pattern set out in Appendix A for German. The spelling **Braunschweig** is found as an unmarked surname in the Family Search Historical Records:

Hans Conradt Braunschweig; Male; Christening; 18 Oct 1585; EVANGELISCH, HEILBRONN, NECKARKREIS, WUERTTEMBERG; Batch: C94699-2

(<https://familysearch.org/ark:/61903/1:1:N2MS-XYV>)

The adjective locative form **Braunschweiger** is also found in Family Search:

Hanss Petter Braunschweiger; Male; Christening; 03 Sep 1587; EVANGELISCH, HEILBRONN, NECKARKREIS, WUERTTEMBERG; Batch: C94699-2

(<https://familysearch.org/ark:/61903/1:1:NZZF-VP8>)

**13: Konner MacPherson -New Badge Returned**

*(Fieldless) A lion guardant per fess rayonny argent and sable, maintaining between its forepaws a thistle sable.*

**Notes:** This item is returned for redraw, for violating SENA A2C2 which states "Elements must be drawn to be identifiable." We found the maintained charge to be unidentifiable as drawn, and the line of partition appeared to be indented rather than rayonny. On redraw, we recommend that the rayonny be drawn longer and with more pronounced curves, and that internal detailing be used on the thistle. Additionally, more bold outlines and internal details on the lion would help.

**14: Mabbe atte Eye -New Device Returned**

*Per pale gules and vert, five mullets of five points in chevron argent*

**Notes:** This device is returned for conflict with the badge of Oleg Rusov, "Vert, in chevron five mullets of four points argent" [A-Lochac, Aug 2004 LoAR]. There is a DC for the field, but "there is no difference granted between mullets of any number of points" [Cover Letter, April 2014 LoAR]

**15: Margaret of Rochester -New Badge Forwarded**

*Azure goutty d'eau, a chevron argent.*

**16: Matteo Genovese -New Name & New Device Forwarded**

*Vert, a spear and in chief two axes argent within a bordure argent semy of daggers vert.*

Submitter desires a masculine name.

Spelling (spelling of Matteo) most important.

**Matteo** is found 13 times as an Italian given name in Aryanhwyl merch Catmael's "Names from Arezzo, Italy, 1386-1528" (<http://www.ellipsis.cx/~liana/names/italian/arezzoalpha.html>)

**Genovese** is found as an adjective of location in Aryanhwyl merch Catmael "Names from an Early 16th C Census of Rome: Feminine Names"

(<http://www.ellipsis.cx/~liana/names/italian/leofemfreq.html>).

**Notes:** In commentary, Maridonna Benvenuti provided the following additional documentation from no-photocopy sources: "Names from 15th and 16th Century Pisa" By Juliana de Luna (Julia Smith) shows the familyname Genovese, p.95 and Matteo as an unmarked patronymic on p. 101. No photocopy needed.

[http://heraldry.sca.org/kwhss/2014/Juliana\\_de\\_Luna/Names\\_from\\_15th\\_and\\_16th\\_Century\\_Pisa.pdf](http://heraldry.sca.org/kwhss/2014/Juliana_de_Luna/Names_from_15th_and_16th_Century_Pisa.pdf)

### 17: Matthildr Skotsdottir -New Name Forwarded

Submitter desires a feminine name.

Sound (unspecified) most important.

**Matthildr** is found in Geirr Bassi p 13 col 1 as a female given name.

**Skotr** is found in Geirr Bassi p 14 col 2 as a male given name. The patronymic is constructed based on the rules set out on p. 17 of Geirr Bassi.

The authenticity boxes are not checked, but "Old Norse" is written on the authenticity line.

The forms refer to both Matthildr and Matthild; Blue Tyger's staff is contacting the submitter to clarify her wishes.

**Notes:** Upon consultation, the submitter has stated a preference for "Matthildr". Therefore, the name is being forwarded in the form found on the iLol.

All other elements are grandfathered to the submitter.

*(Fieldless) A musical note argent entwined by an ivy vine vert*

**21: Mountain Freehold, Shire of -New Badge Forwarded**

*(Fieldless) A seahorse argent conjoined in pale with a trimount couped vert*

*Mountain Freehold, Barony of* was registered in November of 1981 (via the East). The group is now a Shire and the O&A should be updated accordingly.

**Notes:** Blazoned when submitted as “*(Fieldless) A seahorse erect argent conjoined in pale with a trimount couped vert*”, commenters were concerned about whether the trimount is properly couped, suggesting the term “couped enarched”. We are not certain if this is appropriate and are forwarding the badge for further commentary. Commenters also pointed out that as per PicDic 3rd Ed the seahorse is erect by default. We have therefore dropped the posture from the blazon.

**22: Mountain Freehold, Shire of -New Badge Forwarded**

*(Fieldless) A seahorse Or conjoined in pale with a trimount coupé vert*

*Mountain Freehold, Barony of* was registered in November of 1981 (via the East). The group is now a Shire and the O&A should be updated accordingly.

We are not certain if this is appropriate and are forwarding the badge for further commentary. Commenters also pointed out that as per PicDic 3rd Ed the seahorse is erect by default. We have therefore dropped the posture from the blazon.

### 23: Nicolae Muntean -New Name & New Device Forwarded

*Or, a tree issuant from a mount, in chief two falcons striking respectant vert.*

**Nicolae** is found once dated to 1599-1600 in "Names from the Royal Lines of Moldavia and Wallachia" by Aryanhwy merch Catmael

(<http://www.ellipsis.cx/~liana/names/other/romanian.html> Muteanu)

The registration of **Casa de la Muntea** in January 2014 said: "While we cannot be certain this is a properly formed Romanian household name, the evidence presented is sufficient to give the submitter the benefit of the doubt and register the name. Muntea appears to be a given name dated to 1422 and commenters found evidence that appears to document Casa de la X where X is a given name. However, each of those identifications is tentative, and is allowed only because our evidence for period Romanian names is so poor."

**Muntea** is a given name dated to 1443 in Document 229, p.322 of Documenta Romaniae Historica. Seria A : Moldova. Volumul 01 : 1384-1448

([http://digitool.dc.bmms.ro:8881/R/VE8FBVNIKIFUGRQS1IB1RPBRXBK2LPNKYQIEFMA8FMDNBRQCC-00573?func=results-jump-full&set\\_entry=000015&set\\_number=005004&base=GEN01](http://digitool.dc.bmms.ro:8881/R/VE8FBVNIKIFUGRQS1IB1RPBRXBK2LPNKYQIEFMA8FMDNBRQCC-00573?func=results-jump-full&set_entry=000015&set_number=005004&base=GEN01))

Aryanhwy merch Catmael's "Names from the Royal Lines of Moldavia and Wallachia"

(<http://www.ellipsis.cx/~liana/names/other/romanian.html>) gives **-eanu** as a form creating patronymic bynames. The submitter would prefer **Muntean** if it could be documented, but will settle for **Munteanu** based on this article.

**Notes:** Neither Blue Tyger nor his staff have expertise in Romanian naming practices. We are therefore forwarding this name as-is for wider commentary.

#### 24: Nicole la bouchiere -New Name & New Device Forwarded

*Per pale argent and azure, a meat cleaver bendwise sinister counterchanged*

Submitter desires a feminine name.

**Bouchiere** is the feminine form of bouchier (butcher), found in Colm Dubh's "Occupational By-Names in the 1292 Tax Role of Paris" (<http://heraldry.sca.org/names/parisbyname.html>).

Occupational bynames generally match the gender of the given name - for example, Famète la poissonière and Guermont le poissonier.

**Notes:** In commentary, Alys Ogress further documented "la bouchiere" as dated to 1292 Paris in "Bynames in Medieval France" by Aryanhwy merch Catmael

(<http://www.ellipsis.cx/~liana/names/french/frenchbyname.pdf>) at p. 31 s.n. Bouchier

**26: Osc of the Harbours -Resub Device Forwarded**

*Argent, five geese migrant in chevron sable above in base a torteau.*

Returned on the April LOAR:

Osc of the Harbours. Device. Argent, in chevron five geese migrant to chief sable and in base a torteau.

This device is returned for redraw, for blurring the distinction between the primary and secondary charge groups. Because they are of similar visual weights, the geese and the torteau appear to be in the same charge group, in an unblazonable arrangement. The best solution would likely be to draw the geese slightly larger and reduce the size of the torteau.

There is a step from period practice for the use of migrant birds.

This resubmission reduces the size of the torteau to make it clearly a secondary charge.

**27: Piers Campbell -New Acceptance of Household Name Forwarded**

OSCAR finds the name registered exactly as it appears in October of 1993, via the East *Clan Campbell of Applecross*

### 30: Rose Therion Storie -New Name Forwarded

No major changes.

Spelling (of grandfathered elements) most important.

**Rose** is dated to 1316 in R&W s.n. Rose.

The elements **Therion** and **Storie** are grandfathered to her; her father's registered name is Therion Sean Storie. The attestation is enclosed. These name elements were originally documented as French and English.

**Notes:** Commenters were unable to find the cited entry for "Rose" in R&W. Fortunately, "Rose" is easily documented in English from "Feminine Given Names in *A Dictionary of English Surnames*" by Talan Gwyneck. Rose, 1316 Stock, sn. Rose (<http://heraldry.sca.org/names/reaneyHZ.html>).

### 31: Rowen Cloteworthy -New Heraldic Title Forwarded

*Red Lozenge Herald*

The submitter was made a Herald Extraordinary and granted the right to a personal heraldic title at Twelfth Night on January 5, 2013.

This heraldic title follows the pattern of color + charge seen in "Heraldic Titles from the Middle Ages and Renaissance" by Juliana de Luna (<http://medievalscotland.org/jes/HeraldicTitles/>).

Examples of this pattern include Blaunche Senglier (white boar), Blewmantell, and Rouge Cross.

**Red** is dated to c. 1400 in this spelling in the OED s.v. red.

The Pic Dic (<http://mistholme.com/dictionary/lozenge-mascl-rustre/>) says: "A lozenge is a rhomboid shape. It's an ancient charge, dating from at least 1275, in the arms of Boutersem or Baunstersein [Asp2 220]."

The spelling **lozenge** needs to be interpolated before 1650. The spelling **losenges** is dated to 1384 in the MED s.v. inde (n. 2); the spelling **lozinggys** is dated to 1452 in the MED s.v. inbouen. If necessary, **lozenge** could be considered a *Lingua Anglica* form.

**32: Rowen Cloteworthy -New Augmentation of Arms Forwarded**

*Lozengy argent and sable, a chief gules and for an augmentation a canton purpure charged with four millrinds in cross Or*

The submitter was granted an Augmentation of Arms on January 5, 2013.

**Notes:** Blue Tyger's office does not have a copy of Abramowicz and we are therefore unable to confirm the documentation. Additional documentation for the given name was provided by Alys Ogress from Lillia de Vaux's article, "A Preliminary Survey of Names from the Historical Dictionary of Personal Names in Białystok" (KWHSS 2011). "Stanislaw" appears in that article dated to 1510 through 1650.

Commenters were concerned with a possible conflict with the device of Glamorgan of Dudley registered on the June 1973 LoAR: "Azure, a chevron inverted Or between three lion's heads erased argent." There is a DC for changing the type of the secondaries. However, Glamorgan's secondary charges are one-and-two, the default around a chevron inverted, whether here they are two-and-one. This is sufficient to grant a second DC for arrangement.
