Krossa (http://medievalscotland.org/names/eurohouseholds/scotlandclansinscots.shtml

Aucht, num.) [Clan name in Gaelic, normalized Early Modern/Common Gaelic spelling: Clann Alaxandair. or Clann Alusdair]

The article also has one example of "the ald klan of Makdonel", specifically using a chiefly title including a form of 'Mac'. Gaelic examples of clan names including patronymic constructions may be found in Sharon Krossa, "Medieval Gaelic Clan, Household, and Other Group Names" <a href="http://medievalscotland.org/scotnames/households.shtml">http://medievalscotland.org/scotnames/households.shtml</a>.

#### Notes:

The submitter is using the Existing Registration Allowance to allow use of his registered byname in constructing this household name.

SENA NPN.1.C.2.g.The Existing Registration Allowance: Name phrases from a name registered to an individual or branch may be used in a new non-personal name submission by that individual or branch, even if the name phrase is no longer registerable under the rules. The use of the existing registration allowance does not allow the submitter to evade new style problems (as discussed in NPN.2 below). It only allows the submitter a pass on style problems that already exist with the registered name. Documentation under the existing registration allowance does not exempt a name from conflict, presumption, or offense rules, unless that rules violation is itself part of the existing registration in question.

The element used may be the entire substantive element, the designator, or part of the substantive element. Only the exact, actual name phrase from the registered form may be used, not variants, patterns, etc., with the exception of submissions of branch heraldic titles and order names.

This is the masculine form of the name.

SENA Appendix A states that women may use the feminine form of a by-name indicating relationship, note: "Women commonly used a feminized form of their husband's or father's surname, either by adding the suffix -in/-yn, or used a genitive form ending in -s/-z or -en.

Therefore the feminine version of Schmalcz would be Schmalczin.

#### 17. Emine bint Hamza ibn Habib ibn Hasan

Submission	Description	Decision
New Name Change	Emine bint Hamza ibn Habib ibn Hasan	Forwarded

Old Item: Erin inghean Chonchobhair, to be retained as an alternate name.

Submitter desires a feminine name.

No major changes.

Meaning (first name meaning 'trustworthy/believeable' is most important) most important.

This name combines a Turkish given name with an Arabic multi-generational patronymic. The combination of Turkish and Arabic is allowed under SENA Appendix C. Indeed, as we note below, many of the names used in the Arabic multi-generational patronymic are also attested in Turkish contexts.

**Emine** is an Islamic given name attested for 16c Turkish women in "Sixteenth-Century Turkish Names" by Ursula Whitcher (https://www.s-gabriel.org/names/ursula/ottoman/feminine.html)

**Hamza** is an Islamic name attested for 16c Turkish men in "Sixteenth-Century Turkish Names by Ursula Whitcher" (<a href="https://www.s-gabriel.org/names/ursula/ottoman/masculine.html">https://www.s-gabriel.org/names/ursula/ottoman/masculine.html</a> ). The name also appears in Da'ud ibn Auda's "Period Arabic Names and Naming Practices (<a href="http://heraldry.sca.org/names/arabic-naming2.htm">http://heraldry.sca.org/names/arabic-naming2.htm</a> ) in the alternative transliteration Hamzah.

**Habib** is an Arabic masculine given name (ism) found in Da'ud ibn Auda's "Period Arabic Names and Naming Practices", cited above.

**Hasan** is a masculine given name found in Ursula Whitcher's "Sixteenth Century Turkish Names" (<a href="https://www.s-gabriel.org/names/ursula/ottoman/">https://www.s-gabriel.org/names/ursula/ottoman/</a>). The name also appears in Da'ud ibn Auda's "Period Arabic Names and Naming Practices".

Submitter allows adding/deleting a word like "de" or "the" or changing language when the change is small.

#### Notes:

Basil Lions Heart offered dated documentation for Ḥabīb in the 14th century work of lbn Baṭṭūṭa: https://s-gabriel.org/names/basil/battuta/lsms.html

This together with Ursula's pages on 16th century names, puts all the elements within 300 years, as required by SENA.

#### 18. Erna máni

Submission	Description	Decision
New Device Change	Vert, on a bend vert fimbriated between an acorn and a squirrel rampant argent, an increscent, a roundel, and a decrescent Or	Returned

## Notes:

This device is returned for lack of documentation of the arrangement of charge groups. Consider the return of Sofia Speranza on the July 2018 LoAR:

This device is returned for lack of documentation of the arrangement of the charge groups. SENA Appendix J requires that any design with three or more charge groups on the field must have a documentable arrangement of the charge groups. No evidence was presented and none could be found to support two ordinaries with separate sets of charges arranged within and without.

This device has an identical issue. Note that that decision is being appealed (https://oscar.sca.org/index.php?action=145&id=92776), and the submitter should follow the progress of that decision. If the appeal is successful, the submitter may wish to resubmit this design without changes, and reference the decision on Sofia Speranza's return.

# 20. Hakam al-Bashir `Abd Allah

Submission	Description	Decision
New Name	Hakam al-Bashir `Abd Allah	Returned
New Device	Per chevron azure and sable, a chevron, in base a musimon salient and a chief urdy argent	Returned

Submitter desires a masculine name.

**Hakam** is a masculim ism found in Appleton, David B. Period Arabic Names and Naming Practices. 2003. <a href="http://heraldry.sca.org/names/arabic-naming2.htm">http://heraldry.sca.org/names/arabic-naming2.htm</a>

**al-Bashir** is laqab found in the Quran 2:119 (Bringer of Glad Tidings/ The Announcer) <a href="https://en.wikipedia.org/wiki/Names">https://en.wikipedia.org/wiki/Names</a> and titles of Muhammad

`Abd Allah is also a laqab found in Period Arabic Names and Naming Practices.

Although double laquab are uncommon, it can be seen in the attested name Muhammad ibn Ya'la al-Dabbi al-Mufaddal (Ism - Nasab - Laqab - Laqab) from the above article.

If the double lagab is not registerable, the submitter would accept the name **Hakam 'Abd Allah**.

#### Notes:

This name is returned for lack of documentation of the naming pattern in Arabic names.

..."when it comes to theophorous names; i.e., names of the form 'Abd al-\_\_\_\_\_. [these] are not laqabs... Both *The Encyclopaedia of Islam* and *Islamic Names* by Annemarie Schimmel call theorphorous names a kind of ism." Thus, this submitted name is of the form ism + byname + ism, a formation not found in Arabic names. The proposed alternate would be a double given name (not found in Arabic names) without a byname (not permitted by SENA PN.2.B.

In addition, commentary questioned whether al-Bashir is presumptuous, as the documentation given makes it a sobriquet of Muḥammad. The submitter is advised that additional proof of this name phrase being used by everyday individuals would be beneficial if it is used in resubmission.

Since kingdoms are not permitted to create holding names, the armory is returned along with the name. The submitter is advised to make the chief slightly taller upon resubmission.

This device was first submitted and returned on the December 2014 LoAR (http://heraldry.sca.org/loar/2014/12/14-12lar.html#206):

Olivia Baker. Device. Per chevron inverted fleury-counter-fleury Or and gules, a rose and two stalks of wheat counterchanged.

This device submission is returned for redraw, for violating SENA A2C2 which states "Elements must be drawn to be identifiable." Here, commenters had trouble identifying the line of division used because of the complex treatment. The submitter could potentially solve this problem by drawing the full per chevron inverted line as normal with the demi-fleurs-de-lys issuing from the straight line, not issuing from an invisible line.

This device was resubmitted and returned on the June 2016 LoAR (<a href="http://heraldry.sca.org/loar/2016/06/16-06lar.html#188">http://heraldry.sca.org/loar/2016/06/16-06lar.html#188</a> ):

Olivia Baker. Device. Per chevron inverted Or and gules, seven fleurs-de-lys in chevron inverted, alternately erect and inverted, between a rose and two stalks of wheat counterchanged.

Blazoned on the Letter of Intent as per chevron inverted fleury-counterfleury, what we have here is a group of fleurs-de-lys lying across the per chevron inverted line, with alternating upright and inverted fleurs. This creates identifiability issues as well as an arrangement that is not listed in SENA Appendix J, and so may not be registered without documentation that this is a period arrangement of charge groups. A proper fleury-counterfleury field division (as opposed to an ordinary) would have only demi fleurs-de-lys, issuant from the line of division, alternating upright and inverted.

We believe this device addresses the previous issues.

# 30. Pádraig Ó Brádaig

Submission	Description	Decision
New Request for Name Reconsideration	Pádraig Ó Brádaig	Forwarded

Submitter desires a masculine name.

This is a request for name reconsideration. The submitter's name was registered on the April 2017 LoAR via the East, with the documentation for Ó Brádaig. It is a header form in Woulfe at p. 439 with one italicized Anglicized Irish form under it, giving the submitter the benefit of doubt that the Gaelic header form was used in the late 16th century. However, the header form in Woulfe actually has a dot above the final 'g', representing the punctum delens. Thus, the submitter's registered surname should actually be Ó Brádaigh

New Name	Zari Bandak	Forwarded
New Device	Per fess Or and azure, in chief two roundels argent fimbriated each charged with a roundel sable	Forwarded

Notes:

Culture (Middle Eastern, preferable Persian or Turkish) most important. Meaning (Minion, or some sort of servant, is primary) most important.

This is a Middle Persian name constructed as a given name together with a literal descriptive byname.

The patronymic byname **Zariy{a}n**, attested in Middle Persian, uses a form of the word meaning 'yellow' ( "Personal Names, Iranian I. Pre-Islamic Names: General", Encyclopædia Iranica. <a href="http://www.iranicaonline.org/articles/personal-names-iranian-i">http://www.iranicaonline.org/articles/personal-names-iranian-i</a> ) **Zari** is the corresponding father's name.

The submitter would prefer a name with etymology "little+ yellow" if possible. We ask for the College's assistance in documenting this form.

Bandak is a descriptive byname using a Middle Persian word meaning "servant" or "henchman". This word also appears in Middle Persian in the form bandag. Note that Middle Persian does not have grammatical gender. The word was also used as a given name: Encyclopedia Iranica s.v. Banda ( <a href="http://www.iranicaonline.org/articles/banda-servant">http://www.iranicaonline.org/articles/banda-servant</a>) notes that it appears in the patronymic form Bandagan during the reign of the third-century ruler Shapur I and lists multiple compound given names using bandak or banda as an element.
