Notes:
Commenters at Kingdom pointed out that the argent charges partially overlapping the argent sections of the field may be an issue. Sound (Ii, with double i's, Toe-mee-co) most important.

The submitter's desired period and culture is 1550-1600 Japan. The desired sound is equally important to the submitter.

Ii - NCMJ pg 319 (3rd edition), historical surname, *I'i*, dated 1392 and 1600. The submitter would prefer to omit the apostrophe in the name. Other editions of this source give the name as *Ii*.

Tomiko - NCMJ pg 386, historical feminine name, Tomiko, dated 1572.

Examples of size and arrangement of the pattern of nine charges, one large surrounded by 8 smaller of the same type:

- The arrangement of nine circles (Plate 7, Ito Morimasa 1600 from A Roll of Japanese Armory by Solveig Throndardottir)
- Nine apricot leaves "replacing the stars in the nine star arrangement" (O-umajirushi page xxiv "About Mon")

Examples of the flower charge:

Examples of the base:

- Vol. 3, p. 16 (p. 93) of O-umajirushi shows the use of a base, both without any other charge and with a primary charge.
- Vol 5, p. 5 (p 155); Vol. 5, p 24 (p. 174); and Vol 6, p 21 (p. 209) all show a base combined with a primary charge group.
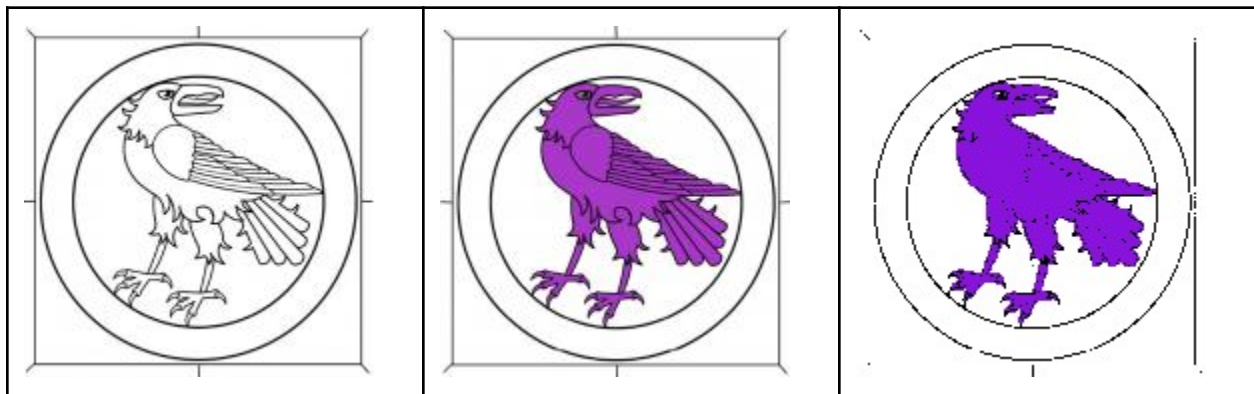

It is the submitter's belief that this is an attested motif/arrangement that should not require an IAP.

Notes:
Heralds at the kingdom decision meeting believe that this IAP additionally requires examples of azure charges on an argent field; we request the assistance of the College in sourcing those.

12. Jacqueline Cross

Action	Description	Decision
New Badge	(Fieldless) Two swords inverted in saltire sable and overall on a plate a raven regardant purpure	Forwarded

Notes:

Per recent changes to SENA A3A2, we believe this design does not violate the prohibition on forms of heraldic (armorial) display being used alone in fieldless designs:

> Forms of heraldic (armorial) display may not be used alone in fieldless designs unless they are uncharged and of an undivided tincture that we do not protect.[...]Forms of heraldic (armorial) display may not be used with other charges in fieldless designs when those other charges appear to be part of a heraldic achievement of an armorial display. Period examples include, but are not limited to, a single supporter or two supporters holding armorial display in a variety of forms, including escutcheons, flags, and others; helms or crowns atop the armorial display; ribbons below the display; or a charge in annulo surrounding the display.
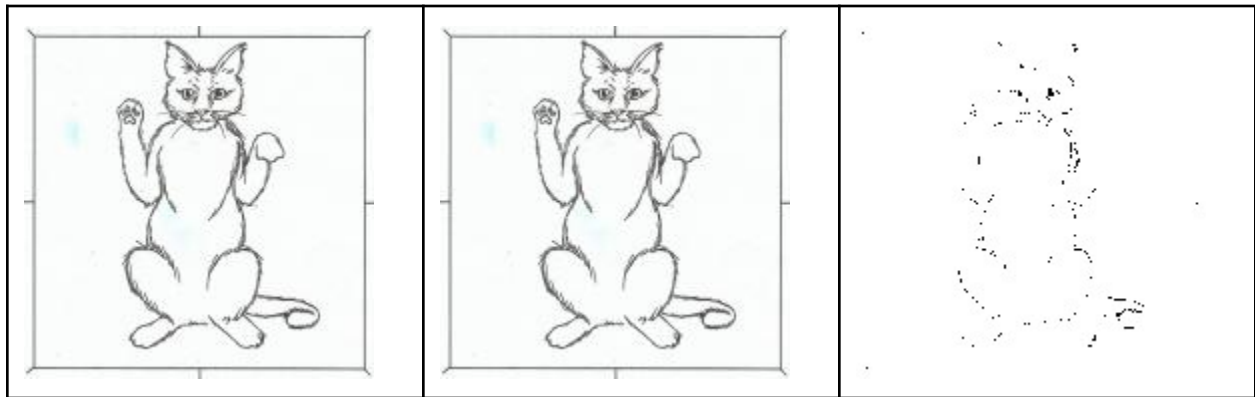

We are unaware of swords in saltire having been used as part of heraldic achievements in period, and we therefore forward this design for Wreath's consideration.

This badge is returned for conflict with the badge of Khaalid al-Jaraad: *(Fieldless) A cat sejant erect affronty argent.* There is one DC for fieldlessness, but none for the raised forepaw, as SENA A5G7a is explicit that the change in position of a head or tail, or of a single leg, is not sufficient to count as a distinct change.

17. Maria la Morada

Action	Description	Decision

New Name	Maria la Morada	Forwarded
New Device	Per pale Or and purpure, a decrescent moon argent and on a chief invected sable four cinquefoils per pale Or and purpure	Forwarded

Submitter desires a feminine name.
Meaning (wants la morada to mean the purple) most important.

Maria is a Spanish Catalan given name found in the DNMES dated to 1248 (https://dmnes.org/cite/Maria/1248/RusGeb).
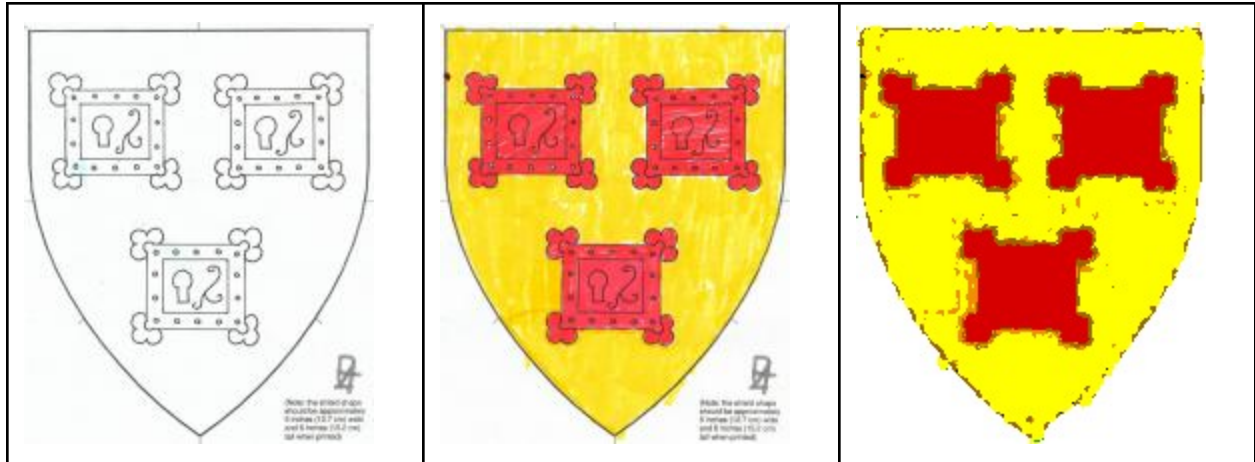

la Morada is a Spanish descriptive byname meaning 'the purple.' We find Morada in the Family Search Records as the christening of Ynes de Torgmada Morada, 6 June 1547, Santiago Apostol, Valladolid, Spain, batch # C87105-1. We can use the marker *la* per SENA Appendix A for Spanish, which says that although usually the article *la* is omitted, it is sometimes known.

There is a note on the form that "If *la Morada* cannot be justified, will accept *la Purpura*. Does not want *Morada* meaning pig fat." It is unclear which form is actually desired/dispreferred.

18. Matthew MacAngus

Action	Description	Decision
New Name	Matthew MacAngus	Forwarded
New Device	Or, three door locks gules	Forwarded

Submitter desires a masculine name.
No major changes.
Sound (unspecified) most important.

Matthew is dated to 1400 in "English Names found in Brass Inscriptions" by Julian Goodwyn (https://heraldry.sca.org/names/brasses/).

MacAngus is the header in Black with a dated spelling *Makangus* in 1492. Mak- and Mac- were used interchangeably.

The door lock (or lock-plate) is a period charge, found in the arms of Grierson of Lag, 1582 [Dunvegan Armorial, fol. 425]. This may be the defining instance of a door lock.

| Action	Description	Decision
New Badge	Purpure papellony Or	Forwarded

Notes:

Heralds at the kingdom-level decision meeting raised the question of whether field treatments are significantly different from plain tinctures for the purposes of conflict; we note that SENA A5F2 explicitly states that "The addition of a field treatment is also a change of tincture"; this is reiterated in A5G1a: "Furs and fields with field treatments are considered different tinctures from their underlying tincture and from other variants which share an underlying tincture."

This badge will be recolored for the external level; the image at kingdom was clearly azure, not purpure, and while the submitter prefers azure, they were advised that *Azure papellony Or* is not clear of conflict, and chose purpure instead.

New Name	Randolph Oak	Forwarded
New Device	Per fess embattled Or and vert, a wolf's head cabossed purpure and a garb Or	Forwarded

Meaning (byname can be changed to Whiteoak, Randolph can be spelled with an f) most important.
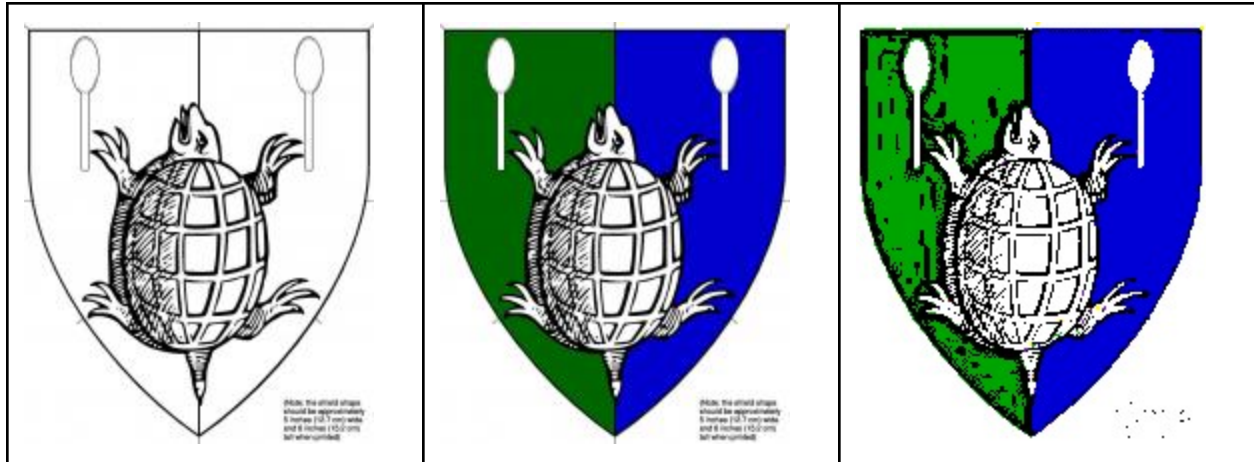

Randolph is found in Talan Gwynek's "Late Sixteenth Century English Given Names" (https://www.s-gabriel.org/names/talan/eng16/eng16mfreq.html) and in Aryanhwy merch Catmael's "Index of Names in the 1582 Subsidy Roll of London" (https://www.ellipsis.cx/~liana/names/english/engmasclondon1582.html).

22. Ranulf de l'Ile du Dragon Dormant

Action	Description	Decision
New Name	Ranulf de l'Ile du Dragon Dormant	Forwarded

de l'Ile du Dragon Dormant - Baronnie de l'Ile du Dragon Dormant is a group in the SCA; the name was registered in April 2013. The Branch Name Allowance usually requires the use of the word 'of', so this would be 'Ranulf of l'Ile du Dragon Dormant' except that the submitter lives in an area where French is spoken as a primary language. The submitter's address is in Quebec, which is part of French Canada.

23. Rónán Mac Pádraig

Action	Description	Decision
New Name	Rónán Mac Pádraig	Forwarded
New Device	Per pale embattled sable and argent semy of tiler's nails sable, in sinister a hammer gules	Forwarded

Submitter desires a masculine name.

No major changes.

Spelling (Ronan to remain as submitted) most important.

Rónán is a male given name found in "100 Most Popular Men's Names in Early Medieval Ireland" by Tangwystal verch Morgant Glasvyrn (http://heraldry.sca.org/names/irish100.html). It is also a saint's name, which allows it to be used in a wide temporal time frame.

Pádraig: Irish Masculine given name, dated under a variety of spellings between 1205 CE and 1578 CE. From Kathleen M. O'Brien's "Index of Names in Irish Annals" (http://medievalscotland.org/kmo/AnnalsIndex/Masculine/Padraig.shtml).

To form the patronymic byname, add **mac** to a male name.

Submitter is interested in knowing what the authentic form would look like so he can decide if he would be interested in the most authentic form but would like to ensure *Ronan* remains as submitted.

Notes:

In commentary, Alys Ogress provided a wealth of information to meet the submitter's request to know what the authentic form would be, which Blue Tyger staff sent to the submitter. Having received no response, we are forwarding this name as-is. For Pelican's use, however, here is a summary:

> Whether or not *Mac* is capitalized in a Gaelic name actually has a meaning. A capitalized *Mac* usually indicates "family of X" not the literal "son of X" the submitter may be intending. The "son of X" meaning uses uncapitalized *mac*. [See 6/2002 CL and Gregor Mac Beathain, 3/2008 LoAR, A-Ansteorra]

> While both the elements *Rónán* and *Pádraig* are found in Gaelic names in the late 12th and early 13th centuries (per Mari's "Index", linked above) and it's therefore reasonable

to say that this name could be authentic for circa 1200 as *Rónán mac Pádraig*, the fact that Pádraig is a saint's name means that in actual usage, the much more common form of it would be *Rónán mac Máel Páṭraic*, meaning "son of the servant of Patrick." In this form, the name is both authentic and reasonably commonplace for the 9th, 10th, and 11th centuries.

Kingdom commenters questioned whether the embattled line as depicted is too far to sinister. Similar depictions in recent years have been registered with merely an Artist's Note (Bolli Gunnarsson, 1/2018, A-Aethelmearc, e.g.); we therefore do not believe that the placement is sufficiently incorrect to warrant return or redraw at Kingdom.

26. Sorcha MacPharlane

Action	Description	Decision
New Name	Sorcha MacPharlane	Forwarded
New Device	Vert, three bees Or and on a chief argent a crow between an increscent and a decrescent sable	Forwarded

Sound (sor-ka) most important.

Sorcha is a Gaelic feminine name dated as early as 1480 in "Index of Names in Irish Annals" by Mari ingen Briain meic Donnchada (https://medievalscotland.org/kmo/AnnalsIndex/Feminine/1201-1600.shtml).

MacPharlane - Black, sn MacFarlan, with *Malcolm MacPharlane* dated to 1385 (https://babel.hathitrust.org/cgi/pt?id=mdp.39015011274175&view=1up&seq=580).

27. Tofa Elwyn

Action	Description	Decision
New Name	Tofa Elwyn	Forwarded with changes
New Device	Per saltire purpure and sable, a badger's head cabossed argent marked sable	Forwarded

Submitter has no preference about the gender of the name.
No major changes.
Sound (wants something of Tov/f and Elwyn) most important.

Tofa is an Old Norse feminine given name found in Geirr Bassi p.15.

Elwyn is an English surname derived from the given name *Elwin/Aylwin*. The dated examples s.v. Elwin/Elwyn in Bardsley include *Elwyn le Heyward* 1273 and *William Elwin* 1273. It is additionally found as a surname in "Surnames in 15th Century York" by Karen Larsdatter (http://heraldry.sca.org/names/york15/surnames-alphabetical.htm).

English and Old Norse were close enough geographically for names to overlap per Appendix C.

Notes:
Appendix C permits name elements in English and Scandinavian to be combined only if both elements are attested prior to 1100 C.E. [See, e.g., Eugene Haraldson, 11/2017 LoAR, A-Atenveldt]. Therefore, the 13th and 15th century citations for *Elwyn* here do not support combining that element with an Old Norse feminine given name. However, we can document *Tova* as a standardized Old English name found in Sawyer Charter 1425, which is dated to 1049 x 1052 (https://esawyer.lib.cam.ac.uk/charter/1425.html). Like header forms in PASE, this standardized academic form should be registerable.
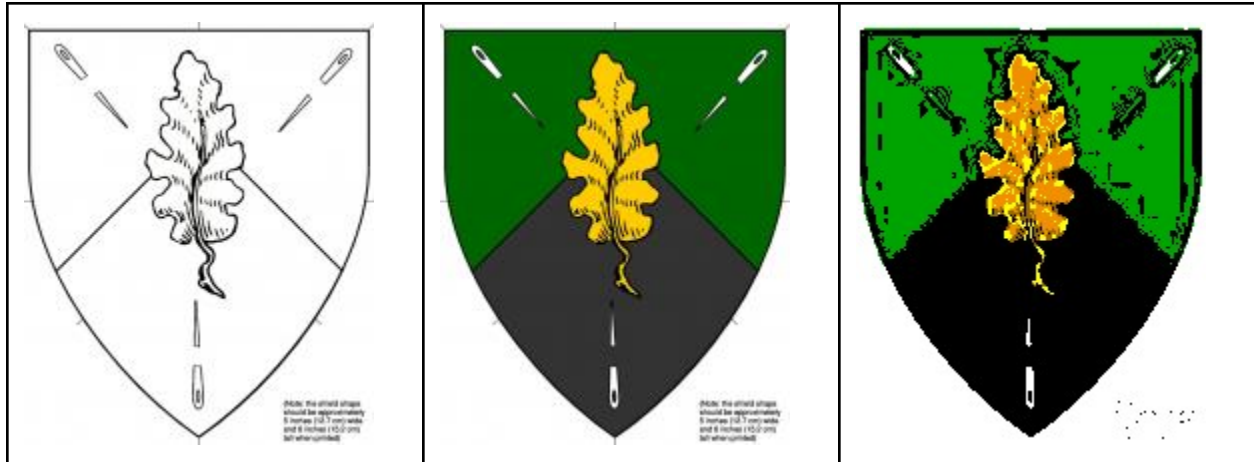

We are therefore forwarding this name as *Tova Elwyn*, which is within the submitter's allowed changes.

29. Wylet Fraser

Action	Description	Decision
New Name	Wylet Fraser	Forwarded with changes
New Device	Argent, in pale a natural rainbow proper and a polypus purpure	Forwarded

Submitter desires a feminine name.
No major changes.
Spelling (Spelling of first name; culture for last name) most important.

Wylet is a Scots feminine given name found in the Family Search Historical Records: Wilet Jamesoun; Female; Christening; 6 Jul 1610; South Leith, Midlothian, Scotland; Batch: C19503-1 (https://www.familysearch.org/ark:/61903/1:1:FQM7-8VL), i/y swap attested to Scots.

Fraser is a Scots byname found in Aryanhwy merch Catmael's "Index of Scots names found in Dictionary of the Older Scottish Tongue" (https://www.ellipsis.cx/~liana/names/scots/dost/fraser.html), dated 1581.

Submitter requests that if a conflict is found (potential conflict: Violet Frasier (Apr. 2012, Middle)), the name *Wylet Fraysser of Invernes* be submitted instead. **Invernes** is a Scottish place name found in "Index of Scots Names found in Dictionary of the Older Scottish Tongue" (https://www.ellipsis.cx/~liana/names/scots/dost/inverness.html) dated to 1544.
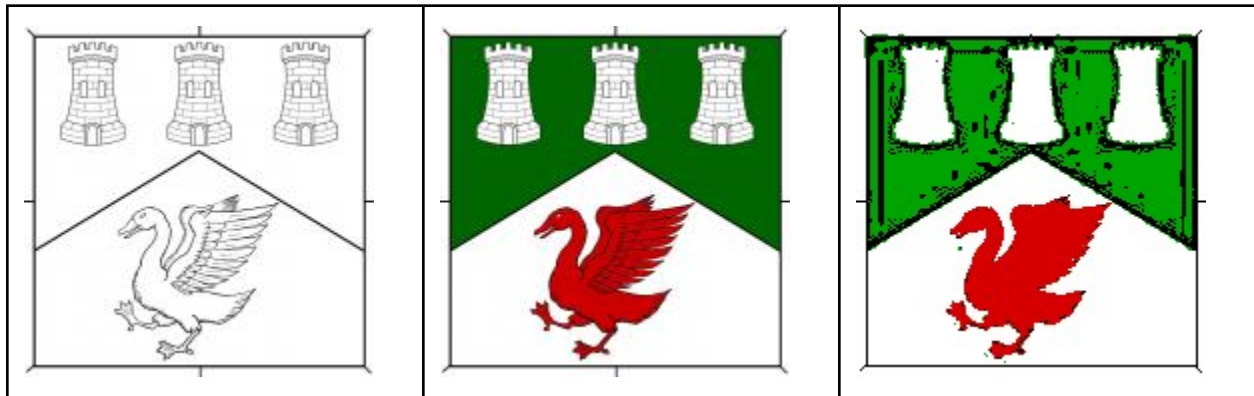

Notes:
Originally submitted with the spelling *Fraser*, the submitter expressed a preference during the kingdom commentary period for the spelling *Fraysser* (found in the same source, dated to 1576 and 1585), so we are making that change as we forward it.

30. `Aziza al-Shiraziyya

Action	Description	Decision
New Alternate Name	Chad von Lübeck	Forwarded
New Badge	Per chevron vert and argent, three towers argent and a goose rousant gules	Forwarded

Submitter desires a masculine name.

Chad is an English saint's name, found in PASE as a header form, which are registerable by precedent [Thurgar Oddsson, June 2016, A-Outlands]. It is also an English surname found in FamilySearch: Elizabeth, wife of William Chad, burial 1649 in Norfolk, England, image 118. English surnames can be used as given names (App A of SENA) and then borrowed into German (Feb 2015 Cover Letter).

The submitter would prefer the spelling *Tschad* if it can be documented.

von Lubeck is a German locative byname. *Lubeck* is dated in that spelling to 1585 and found on a map by Kupferdruck and published by Mercator (http://biblio.unibe.ch/web-apps/maps/zoomify.php?pic=Ryh_5201_1.jpg&col=ryh).
